

THE WAINWRIGHT STAR

VOLUME IV

WAINWRIGHT, ALBERTA, WEDNESDAY, JUNE 27 1912

NUMBER 40

MONDAY NEXT, JULY 1st., IS WAINWRIGHT'S NATAL DAY

EASTERN TOWNS A SCORE OF YEARS IN AGE HAVE NOT IMPROVEMENTS OF THIS NATURE

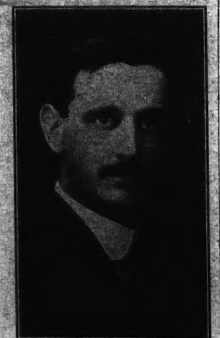

Ontario Man Thinks Thus of Wainwright and the Many Improvements Made
Hard for Easterners to Conceive How Towns Make the Progress in West.

Coming west with the express purpose of ascertaining the value of real estate investment in the local sub division, now being advertised as South Wainwright, Mr. William Woods, of Bowmanville, Ont., was a visitor here last week, and in fact is in these parts still.

Sometime ago, Mr. Woods became directly interested in the National Townsite & Investment Company and now owns considerable property in South Wainwright. He did not own more, but he has disposed of many lots to Ontario people, who believe that Wainwright will become a centre of no small importance.

Mr. Woods is very enthusiastic over the prospects in this part of Alberta and is convinced that Wainwright has a promising future. When he arrived he expected to find electric lights, a sewage system and a water system, and for a time was somewhat disappointed. Informed, however, that the town was but three years and a half old, he changed his opinion.

"If that is the case, then I am not surprised. Towns in Ontario, a score of years in age, have none of these modern improvements. They are not even as modern looking as Wainwright. It is hard for an Easterner to believe that western towns can spring up so rapidly and develop so substantially."

MR. A. F. MANTLE
Deputy Minister of Agriculture for Saskatchewan, who is one of the five wives at the International Dry Farming Congress, which is being held in Lethbridge, October 21-25.

ARCHITECT STIMPSON IN CHARGE

Architect E. D. Stimpson is in charge of the erection of the new hotel at Chauvin, which is being erected by the Chauvin Hotel Company. He visited that point on Monday and reports construction as progressing very favorably.

NEW G.T.P. OPERATOR

Mr. H. B. Fowler, formerly of Toronto, where he was employed with the Grand Trunk, arrived here last week and is now holding down a seat in the local station as operator. He will remain here permanently on the day staff.

WHOLESALE LIQUOR LICENSE

Understood that Such a License will Shortly be Applied for Here.

Whether or not Wainwright will have a wholesale liquor establishment depends entirely on the population, and if the town contains the required one thousand people then a license can be granted.

It is understood that such an establishment is being considered at present and in order to ascertain the exact census of the town, a count will shortly be made. It is further said that the sale of a business house on Main Street has practically been consummated, and in the event of a favorable census a license will be applied for by a man who is already here.

WATER PROBLEM IS CONFRONTING THE BRICKMAKERS

Unless Shortage of Water is Overcome by Supply from New Well, Difficulty May Mean More Delay

Brickmaking has started at the local brick yard, and although but a few are now in the dry shed, enough is evident to prove that satisfactory results will be obtained. Messrs. Clark & Taylor are encountering some difficulty, however, in procuring water, and unless the new well which is now being bored gives a better supply, the problem will be serious.

When the following said: "If that is the case, then I am not surprised. Towns in Ontario, a score of years in age, have none of these modern improvements. They are not even as modern looking as Wainwright. It is hard for an Easterner to believe that western towns can spring up so rapidly and develop so substantially."

TOFIELD GETS NATURAL GAS

Tofield's natural gas problem has been solved, for on Saturday night last a tremendous flow was struck at a depth of one thousand and fifty-four feet. As the drill struck the flow, water and mud were blown from the bottom of the hole up into the air, bespattering houses for hundreds of feet around.

It is estimated that the gas will measure between one and two million feet, although it is not accurately known as yet just what quantity really is in the well. The residents of Tofield are made with joy and property values have doubled, and one report states they have tripled.

When your child has whooping cough be careful to keep the cough loose and expectoration easy by giving Chamberlain's Cough Remedy as may be required. This remedy will also liquify the tough mucus and make it easier to expectorate. It has been used successfully in many epidemics and is safe and sure. For sale by all dealers.

Miss Lillian Baldwin, who has been in Edmonton for sometime past, is the guest of Mr. and Mrs. Crampton for a few weeks.

SERVICES OF W. J. McLEAN RETAINED BY BOARD SCHOOL TRUSTEES FOR ONE YEAR

School Trustees to be Commended on Having Secured Principal McLean for Another Year

Congratulations are in order and the school board is to be highly commended on having secured the services of Principal McLean for another year. Few will find fault with any member of the board for their efforts in inducing Principal McLean to remain with us, for, during his two year stay in Wainwright he has proven his capability and proficiency in the work of higher education. He has established the school on a firm foundation on which it now securely stands.

The only fault to be found with the school trustees lies in their failure to secure his services for two, three or twice that many years, providing of course that he continues in the same progressive path, which has marked his line of advance during the past, and it is unnecessary to reiterate that he has the full confidence of all.

PLANS FOR RESIDENCE

Plans have been completed by Architect E. D. Stimpson for the erection of a fine residence for Mr. George Ross, who is contemplating the erection of a building in the near future. It will be built on lot 31.

MARRIED THIS AFTERNOON

One of the most popular couples, residing in Wainwright's vicinity, were married this afternoon, the principals in the happy event being Miss Nettie E. Mabey and Mr. Lee Wells. The bride, who is a very accomplished and popular young lady, is a daughter of Mr. Harry Mabey, who is in partnership with Mr. Wells in the cattle ranching business.

The ceremony, which took place at 1:30 this afternoon, was solemnized by Rev. H. A. Clark, the bride being given away by her father. Only the immediate relatives and friends of the couple were present.

After a sumptuous wedding dinner at the home of Mr. Mabey, the happy couple will leave on this afternoon's express for Calgary and before returning here will visit Banff. On their return, they will reside in the fine residence recently completed by Mr. Wells, ten miles south east of here.

The Star joins with their numerous friends in wishing them every prosperity and a long and happy married life.

Few behave as well as the weather man these days, for he sends sunshine when we need it and the moisture when we need it. Other localities even in Alberta are crying for rain, rain and more rain. But the northern sections are quietly smoking the pipe of contentment.

A fine bunch of cattle were shipped from here last week by Houcher Bros., the shipment consisting of about one hundred head. They were transported to Edmonton via G.T.P. to the Swift Canadian Company. This is but the advance shipment of a large number which will leave the district this season.

FIRE HALL FOUNDATION

The condemned foundation of the fire hall is being removed, work starting on Monday morning. Herb Walker, an experienced concrete mason in charge and will replace the wall by a substantial mixture of cement. He states that the wall is the worst he ever saw and does not know as yet just how much of the defective concrete it will be necessary to replace.

CHAUVIN ADVANCE GOES "UP IN THE AIR" AGAIN

Because Chauvin will celebrate on July 4th, instead of Dominion Day, because the officers of the athletic association saw fit to send their orders for printing to the Star office and for several other petty reasons, Mrs. Keane, editor of the Chauvin Advance, has dwelt to great length in her columns of last week on the situation. It is rich and worth reading with a microscope.

EXCELLENT FISHING

Several local parties have recently taken advantage of the excellent fishing in Clear Water and Arm Lakes, which are located near Heath, and at a distance of about twelve miles from Wainwright. Boats are being built by farmers in that locality and will be the outfitting parties.

PS TO TOWN

Editor Star—A report was in circulation yesterday to the effect that the Attorney General had ordered the fine imposed by me on May 6th, on one Archie Wilson, in the case of Aykroyd vs. Wilson, paid back to the said Wilson. This report has come to my ears from a reliable source and I wish to state that while in Edmonton last week I recommended to the Deputy Attorney General that the fine be remitted to Wilson, on the grounds that he being under age, I thought that justice would be as well served by the lesson he had been taught. There was a condition, however, on which I asked this request, this being that the Department hold my judgment unprejudiced and legal.

Should anyone doubt the veracity of this declaration, I would refer them to Mr. L. F. Clarry, Deputy Attorney General, Edmonton.

Yours truly,
J. H. Dawson, J. P.
Wainwright, June 26th.

REMOVING TO EDMONTON

Mr. George Richardson is disposing of his household furniture by private sale, previous to moving to Edmonton, where he will reside. Mr. Richardson will likely go into the real estate business in that city. He owns real estate there at present.

The Ladies Aid of the Presbyterian Church have secured a space at the Athletic Grounds for a booth on July 1st. Refreshments of all kinds will be served and confectionery and home made candy, soft drinks, etc., sold.

T. G. Cook left here yesterday for Mirror, where he will superintend for a few days the construction of the Imperial Hotel which is now in progress. He will return the latter part of the week.

MABEY, WELLS & NEWPORT DISPOSE OF \$30,000 WORTH CHOICE BEEF CATTLE

Progressive Cattle Ranchers Sell Upwards Four Hundred Head to P. Burns of Calgary

\$30,000 was the extent of a sale of cattle which was consummated yesterday by Messrs. Mabey, Wells & Newport and on July 1st, three hundred and seventy head will be shipped from here by those enterprising cattle ranchers. The cattle were sold to P. Burns & Co., and shipment will be made to Edmonton.

From this sale, some idea can be formed of the extent of cattle raising in the Wainwright district, from which hundreds of thousands of dollars worth are shipped annually. Numerous other ranchers are engaged in the same business in this district and it is satisfying to note that it is increasing each year. Already the Wainwright district, but four years of age, boasts of being the locality from which a sufficient number of cattle are shipped as to make Wainwright the second highest in the province.

In addition to the three hundred and seventy cattle which will be shipped by Messrs. Mabey, Wells & Newport, 700 additional two-year olds and one hundred yearlings are now grazing on lands leased by these prosperous ranchers.

MR. C. R. DOLD INTO WAINWRIGHT

A report has come to the notice of the majority of citizens in reference to a branch line of the C.P.R. from a northern section of the province, which, it is stated will pass through, or approximately near Wainwright. Information is very meagre, although it is stated that there is more or less truth in the report.

It is further reported that a survey has already been made which was understood to have been run by the C.N.R., and which was reported through these columns at one time. Many are inclined to scout this information, however, in view of what the surveyors reported. Developments will be awaited with keen interest.

DISTRICT COURT IN SESSION

The district court is in session here today, and Judge Lees is presiding. Several cases are being tried and the session promises to be rather lengthy. An appeal is also being heard by Judge Lees. Judgement in the Aykroyd vs. Carruthers case will be given today. He was charged with breach of contract by Mr. Aykroyd.

Mr. E. Ingham, of Edmonton, is again in town and it is stated that he will start the erection of a large brick block on Main Street immediately. Mr. Ingham owns the lot, between the G. H. Beaudry Co. and W. S. Clark, and plans for a building have already been drawn.

The first strawberries of the season were picked yesterday by Robert Kenny's children, and the family enjoyed a fine feed of them last night. They are reported as being plentiful this year.

NEW LAND AGENT HERE

Appointment Likely to be Made Shortly and H. W. McLeod is Slated for Office

H. W. McLeod, the local postmaster, will likely receive the appointment of Dominion Land Agent here, in succession to Mr. Norman Culp who resigned previous to his departure for Port Mann. Some dissatisfaction is prevalent among district farmers who have been awaiting this appointment for some time past, in order to prove up their homesteads or obtain desired information, relative to Dominion lands.

The appointment will probably be made sometime this week and it is understood and practically certain that Mr. McLeod is slated for the office.

NIGHT LETTERGRAM SERVICE IS NOW IN VOGUE

A. B. Smith, Supt. of Telegraphs, Grants Much-Needed Service and Citizens Express Satisfaction

Congratulations are in order all-around a night lettergram service has been finally secured by the local board of trade and a difficulty which has inconvenienced the public for sometime past has been remedied, and satisfactorily adjusted by Mr. A. B. Smith, Superintendent of G. T. P. telegraphs.

Some time ago, the local board of trade placed a petition in the hands of Mr. Smith, requesting that a night lettergram service be established and patrons of the G. T. P. telegraphs enjoy the convenience of an up-to-date service.

Many difficulties, however, had to be overcome by this particular department of the G. T. P., and the manner in which it was handled by Mr. Smith gives rise for general satisfaction locally. One thing still remains as an inconvenience to the public, this being the installation of a phone in the local station, and it is to be hoped that this request will be granted by Smith in the same expedient and satisfactory manner as the night-letter service.

BLOOD and THUNDER

Blood and thunder figured prominently in the two shows, presented here on Monday and Tuesday nights, entitled "The Texas Ranger" and "Jesse James". Both performances were well attended and by many were enjoyed. Excitement was punctuated at intervals by revolver shots and the thrilling experiences of early life in the Western States were fully depicted. The West loves a western play, but one perhaps which is a little tamer than these.

Jack Connell is in town, and is now in training for July 1st, and is superintending the erection of a platform for a ring in the rink. He is in good shape and expects to make a favorable showing here on Dominion Day. He is anxious to show that he is not the "quitter" which the Edmonton papers have branded him.

Mrs. George L. Gregson returned here on Sunday in company with her infant son.

Mr. and Mrs. Thos. Selectman returned from Edmonton on Sunday and are now employed at the Wainwright Hotel.

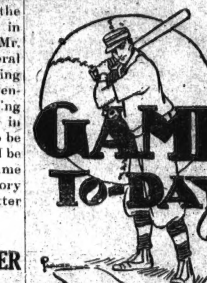

DELAYED MAIL SERVICE STILL IN VOGUE; MAILS ARRIVE HERE 51 MRS. AFTER LEAVING 'PEB

Express Covers Same Distance in Little More than Half that Time

It Takes More than Four Full Days to Get Reply from City of Winnipeg

No grievance is ever remedied without more or less agitation, and the people along the line of the G. T. P. between here and Winnipeg consider that they have a grievance in the manner in which the Winnipeg mail is being delivered. For some reason, the public are compelled to wait one day longer for their mail than before the recent schedule of the G. T. P. came into effect. A letter passes through the Winnipeg post office at 1 P.M. and arrives here two days later at 4 P.M.

What manner of service is this for the citizens of the west to put up with, when the mails are required to be delivered with promptitude? From the time the letters pass into the Winnipeg post office until they arrive at Wainwright, fifty-one hours must elapse, while the passenger train covers the same distance in twenty-three hours. Write a letter to Winnipeg and a reply is received four days later and the total distance travelled is 1332 miles. There must surely be some remedy which can be applied and the sooner it is done, the better it will be for the service, which this country needs. A service, which only requires a correspond with the usual amount of delivery in His Majesty's mail and satisfy the needs of the community.

The town baseball team will play the G. T. P. aggregation tonight, commencing at 7 P. M. sharp. A good game is anticipated for both teams are in fine trim. Local fans should make it a point to be on the athletic grounds when the game starts.

Both teams will be strengthened, the railway boys having secured the services of a battery from down the line. The new town battery will be on deck and the best game thus far is expected.

DEATH OF GEORGE STODDARD

The death occurred on Saturday evening last of George Stoddard, a well known resident of the town, who, previous to his death, was employed at the Buffalo Livery barns. His illness extended over a very short period, the immediate cause of death being pulmonary oedema of the lungs. Interment was made on Monday morning in the undertaking apartments of Small Bros. The late Mr. Stoddard was thirty-eight years of age and unmarried.

PRIZE WINNING B.C. FRUIT LANDS

OWN a five acre fruit and poultry tract (or more) in British Columbia and be independent for life. \$20 down and \$10 a month pays for it. No interest and payments extended in case of sickness. From \$500 to \$1,500 per acre realized by ranchers in this famous prize-winning district, the Main Kootenay Lake, Ideal climatic conditions, no rainy seasons on the coast, no dry seasons or irrigation needed as in the Okanagan and Okanogan districts. See Government reports of other districts. I spent years in finding this Ideal spot I live there myself. I call my own fruit ranch—60 acres—"The Honeydew Place." Send for my booklet entitled "Homecoming." It tells you all you want to know about that great British Columbia country, and there are scores of questions answered.

The new booklet, "Harris' New Method of Apple Culture," tells you how apples can be made to come into commercial bearing the second year. The old way you had to wait five years. Where a farmer made \$1,500 he can now make \$3,000 per acre. It is free if you will send me the names of ten of your friends or relatives who may be interested in buying fruit lands. I have sold to over 400 people the last four months and would be pleased to send you copies of some of the nice letters that they have written to me, which I received from those who have visited their holdings, which I picked out for them.

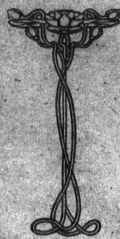

I refund you your money if after seeing the tract I select for you you are not satisfied with it or with the rest I have to offer. If you cannot go on to your tract and wish to retain your present position for a few years and spend your vacation out there, I will agree to plant it and take care of it for you for five years at a small additional cost and give you a share of the profits from crops. I allow you a discount of ten per cent. for cash and give you a good commission in case you can secure buyers for me.

My monthly price list for wild and improved tracts will interest the most careful buyer. My next excursion will be leaving Winnipeg June 27, and I will be pleased to have you join me. Send for my famous "Kootenay Magazine," issued monthly, illustrated and full of good things about that wonderful country. \$2.50 per year or 25c for sample copy. A year's subscription for 20 names and addresses (written plainly) of people interested in B. C. fruit lands.

Write me at once, giving name of a reliable reference, your nationality, amount you wish to invest, and I will forward booklet, map, etc. Address me personally at head office:

CANADA IN THE FRONT

Qualifying increases in Trade between the United Kingdom and Her Majesty's Dominion.

A review of the shipping trade of the past year between the United Kingdom and the various colonies gives a large predominance to Canadian business, as far as tonnage is concerned. The latest figures show that the total tonnage of vessels cleared with cargoes from the United Kingdom to Canada during the year ended 31st December, 1911, was 2,375,993 tons, or 38.5 per cent. over the year 1909. Going the other way, a tonnage of 2,809,745 was cleared from Canada to the United Kingdom, being 35,688 tons, or 15 per cent. greater than 1909, and 30,287 tons, or 15.3 per cent. greater than 1909.

In the following table Canada's shipments to the Old Country and vice versa are compared with those of other dominions:

Voyages from the United Kingdom to—	1911.	1910.
Canada	2,375,993	2,224,634
British India	1,549,272	1,535,130
Australia	1,092,988	980,309
New Zealand	502,180	448,231
South Africa	725,485	696,114
Other British Possessions	1,564,558	1,324,031
Tonnage to the United Kingdom from—	1911.	1910.
Canada	2,809,745	2,375,993
British India	2,967,004	2,895,713
Australia	1,471,475	1,471,475
New Zealand	361,290	414,449
South Africa	618,711	495,571
Other Br. Poss.	1,558,991	1,304,069

OUR HOME MARKET

Canada Consumes the Greatest Part of its Own Manufactures

The annual output of factory goods in Canada is valued at over a billion dollars. The annual output of finished products amounts to another billion dollars. The artisans and work people engaged in these 20,000 factories number nearly half a million, and earn in wages each year over \$250,000,000. In the six years that have elapsed since 1905, an increase of more than 25 per cent. has taken place in the number of industries, the number of hands employed, the capital invested, the wages paid, and in the output of finished products. This remarkable expansion, it may be said, is due largely to the fact that Canada's appetite has grown with the addition of cubits to her stature, and the demand for goods of all kinds is greater than ever before. Exports of Canadian manufactures comprise the best part of our trade. While it is extremely difficult to tell exactly how much the output of manufactures in Canada amounts to, it is possible from the estimates at hand to show the relatively greater demands made upon our factories by our own people than by foreign markets. This also becomes apparent when we take into consideration the fact that the value of our exports is only one-third of the value of our imports. The value of our exports is only one-third of the value of our imports. The value of our exports is only one-third of the value of our imports.

GUARANTEES IN RECENT YEARS
Cash subsidies and land grants have been the most popular form of contributions to railway building in Canada. But this is not all. In recent years a preference for aid in the form of guarantees as against cash or land subsidies has arisen among the promoters of railway enterprises. The obligations that have been undertaken in this way have amounted, up to this year, to \$127,356,367, which has been made up as follows:

Manitoba	\$5,435,365
Alberta	20,499,640
Saskatchewan	25,742,000
Ontario	11,995,000
Nova Scotia	7,360,000
British Columbia	6,022,000
New Brunswick	2,196,342
Quebec	709,000
Quebec	476,000
Total	\$127,356,367

NO SIGN OF CHANGE

The cost of commodities is much higher than a few years ago and the tendency is still upward. Prosperity creates higher wages which in turn increase the cost of manufactures and living generally. Discussing this point, the memorial of the civil service association presented to the Royal Commissioners appointed to inquire into civil service matters, said: "Extraordinary as the present conditions are, there is no sign on the industrial economic horizon that portends a change. The great prosperity in which the whole country is rejoicing shows not the slightest indication of abatement. As a matter of fact, what signs there are point uniformly to continued industrial and trade expansion, the only embarrassment that threatens being the lack of facilities—those of transportation in particular—to reap the splendid harvest to the full. Prices, therefore, may be expected not only to remain high, but to show still further advances."

The attractions at the Calgary Industrial fair this year will be exceptionally high class. This exhibition in the past has set a high standard for those events but it has exceeded itself this year. The great Nyussar Ladies Band which in the past has proven so popular will again be seen and heard there.

TATTS' MOTIVE NOW REVEALED

Correspondence Shows That He Would Make Canada an Adjunct of the United States.

What President Tatt really meant in his negotiation with Canada for the purchase of the Canadian Pacific Railway is revealed in his correspondence with Theodore Roosevelt at the time negotiations were in progress, which has just been made public. He declared that the agreement would make Canada an "adjunct of the United States," would transfer all "their" important business to Chicago and New York, with all bank credits and everything else.

Mr. Tatt's letter is as follows: "Just at present I am in the midst of reciprocity matters, and I would greatly like to talk over with you on this issue. I have as you have known, always been a fervent and downward revision man, and the reason why I favored the last tariff bill and brought it as the best one ever had was: That the consideration of it on its passage, and the efforts of those who defended it, were towards to show that it was a downward revision were all a concession by the Republicans of their original type that no tariff could be too high, because what you needed was a Chinese wall, which had been departed from. Now, the probability is that we shall reach an agreement with our Canadian friends, which all natural products—wheat, barley, oats, hay, etc.—and meat and cattle—shall enter both countries free, and that we shall get in return, a tariff on our heavy goods. I would like, but a substantial one, and equivalent certainly to the French tariff on our goods, and probably more."

"The truth is that the minute that we adopt in convention the proposal that our tariff should be lowered, we necessarily adopt a rule which would lead us straight to reciprocity in the conditions in the two countries. It is no different in the cost of production. It is a stable and lower in some parts of Canada than in the United States, but it is also higher in some parts, and the adoption of free trade would rapidly increase the cost of labor in those parts where it is cheaper in Canada, so that the conditions would be the same."

"It might at first have a tendency to reduce the cost of food products somewhat; it would certainly make the reservoir much greater, and prevent fluctuations. Meanwhile the amount of Canadian products we would take would produce a current of business between Western Canada and the United States that would make Canada only an adjunct of the United States. It would transfer all their important business to Chicago and New York, with their bank credits and everything else, and it would increase greatly the demand of Canada for our manufactures. I see this is an argument against reciprocity made by Canada, and I think it is a very strong one."

"The proposition is to make an arrangement by which we shall present to both Houses of Congress an agreement to lower our tariff and an agreement to raise theirs. In this way we would avoid the necessity for two-thirds in the Senate, and would secure at once the consent of the House, which is the tariff matter is generally regarded as necessary at any rate. This will cause a great commotion, I presume. It will be unpopular in New York because of certain lumber-manufacturing interests and the dairy interests. It will be unpopular in Minnesota because of wheat; but on the other hand, free lumber will be popular in some places, and as it includes free paper and free wood pulp we may count on the fairly good support of the press."

"This letter, of course, I must ask you to regard as confidential, though I would be glad to have you discuss with your colleagues on the Outlook such a proposition, and should be glad to hear from you as to your judgment of it. I think it may break the Republican party for awhile. As Elihu Root said when I talked with him yesterday, it may be as well to wedge against protection, although it is not inconsistent with the principle of protection as we laid it down in Chicago. Of course it will be said against it that we are taking agriculture and the dairy, making it suffer first before we tackle wool and cotton. The bill is not likely to pass the present Congress, and before the next Congress comes together I think I shall be able to make some recommendations as to the wool and cotton schedule and present a problem to the Democrats which they are not likely to find an easy one. At least it will show the hypocrisy of some people. Of course this is no ground whatever for introducing and passing such a measure. I believe it to be right, and if it leads, on the other hand, to reduction in wool and cotton manufacturers to the lowest figure as to what is a real measure of the difference in the cost of production, so much the better."

"I shall be glad to hear from you as soon as you conveniently can write on this subject, because the matter is just at hand, and it is quite likely that within ten days we shall reach an agreement."

Theodore Roosevelt in reply said: "I see you are anxious to know what you propose to do with Canada. It is admirable from every standpoint. I firmly believe in free trade with Canada for both economic and political reasons. As you say, labor cost is substantially the same in the two countries, so that you are simply leveling the platform. Whether Canada will accept such reciprocity, I do not know, but it is greatly to your credit to make the effort. It may damage the Republican party for a while, but it will surely benefit the party in the end, especially if you tackle wool, cotton, etc., as you propose."

"Every year," Theodore Roosevelt.

It is now well known that not more than one case of rheumatism in ten requires any internal treatment whatever. All that is needed is free application of Chamberlain's Liniment and massaging the parts at each application. Try it and see how quickly it will relieve the soreness. Sold by all dealers.

Features which will Attend Calgary's Industrial Fair

A grand fireworks program has been arranged for at the Calgary Industrial exhibition. Four programs, entailing an expenditure of some thousands of dollars, will be given. They will include aerial thunder, bombs, fire balloons, wonderful pyrotechnic lights, bursting stars, etc. Then there is the "Star of the Golden West," an immense circle of spotlights, are 120 feet in circumference; the "Performing Bear" showing in light a clumsy bear trying to do acrobatic stunts; thousands of beautiful star and flower effects. The great fireworks scene of the "Siege of Quebec" will be given, a wonderful creation of fire and light. It is in itself one of the most wondrously impressive sights.

A large meeting will be held in the Church of England on Thursday this week, commencing 8:30 P.M. This speakers will be Canon Gould, general secretary of the missionary society of the Canadian Church, Archdeacon Davidson, Archdeacon of Saskatchewan, and Rev. G. E. French, superintendent of the clergy of the Lloydminster district. Light refreshments will be served free to all from 7:30 to 8:30. Everybody heartily invited.

The closing date for the entries for the Calgary Industrial fair at Calgary, June 30 to July 31, is Saturday June 16th. Wainwright's chances for the baseball championship of the C. T. P. line continue to look brighter. Three men from outlying points have recently taken jobs in the town, and as luck would have it, they are capable of holding down three of the most important positions on the team. The box is now filled with a star pitcher and the other arm of the battery is considered as being in a class by himself. Second base is held down by a clever little player who has starred here on previous occasions.

The local team is considered stronger than ever before, and even of greater strength than the 1910, "magnificent" where Doc Betts was the shining light in the pitcher's box. Several changes, however, will likely be made before the final appearance on the diamond on July 1st. The outfielders have just been selected, although there are at least five men who have shown a class and from whom the three will be picked.
